## Feature highlights

1

### Lending a Hand for Steering

The Can-Am Renegade X xc 1000R comes with Tri- Mode Dynamic Power Steering (DPS). With progressive tri-modes (min, med, max), the technology counteracts unstable or difficult steering caused by external forces like strong crosswinds or uneven roads. With DPS, you get proper steering assistance from the steering gear to never veer off path.

2

### Differential That Makes a Difference

The Can-Am Renegade X xc 1000R has a Visco-Lok® QE (Quick Engagement) auto-locking front differential that delivers grip for days. The advantage of this feature is that engaging the front differential is now even quicker: with no rev or speed limiter, optimal wheel traction follows you on every ride.

3

### New & Intelligent Braking

The Intelligent Engine Braking (iEB) of the Can-Am Renegade X xc 1000R puts the rider in control of the engine braking. When you're carrying heavy loads or riding downhill with full cargo, more engine braking is needed. For lighter loads or when it's only the rider driving with a passenger, less engine braking is necessary to avoid bumping helmets every time you touch the throttle.

4

### Fewer Shocks When You Ride

Ready for more? The FOX® 1.5 PODIUM RCS shocks are high-performance front and rear shocks to help you seek thrills on the Can-Am Renegade X xc 1000R. Adapt in real time to the terrain and the style you like, then head out for more fun.

5

### Aluminum Beadlock Wheels

The Can-Am Renegade X xc 1000R sits on 12 inch cast-aluminum beadlock wheels. The draw on these lies in the mechanical fastening beadlock system. The beadlock on these makes the tires the go-to choice during heavy acceleration or when looking to cut corners: it's nearly impossible for the tire bead to break loose from the wheel.

6

### Front & Central Skid Plate

The front and central skid plate made of aluminum that sits under the Can-Am Renegade X xc 1000R allows you to glide smoothly over obstacles. The end result is great protection in rough terrain.

7

### Guarding Your Hands

This vehicle has aluminum taper-profile handlebar with full wrap handguards for additional comfort and protection against the outside elements. It fits the profile of the aggressive rider who likes to push further, because it doesn't compromise on safety of comfort.

8

### Made You Look

Enhance the racing look of the Can-Am Renegade X xc 1000R with exclusive package coloration, graphics and seat cover. It's designed to connect the rider to the ATV's every move. Give your ride a makeover that lives up to its billing.
